

2021 NECoMG Annual Meeting

Guest Speaker: Dr. Leslie Sebba

June 17, 2021 @7:00 a.m.

AGENDA

- ✓ Welcome – Dr. Pierre Ezzi
- ✓ Current State of Clinically Integrated Networks in Massachusetts - Guest Speaker Dr. Leslie Sebba
- ✓ NECoMG Board of Directors Election Results – Dr. Pierre Ezzi

Dr. Leslie Sebba – Retired Chief Medical Officer, BILHPN

Leslie Sebba, MD recently retired. At the time of his retirement he was the Chief Medical Officer of Beth Israel Lahey Health Performance Network, the Clinically Integrated Network of Beth Israel Lahey Health system. He was also the President of Lahey Clinical Performance Network and Lahey Clinical Performance Accountable Care Organization, an MSSP ACO. The two organizations cover over 180,000 risk lives, and have over 230 Primary Care Physicians and 1100 Specialists.

Dr. Sebba is a Board Certified internist and Pulmonologist who practiced on the North Shore of Boston for over 18 years. He has served as a Medical Director at Tufts Health Plan, and as Chief Medical Officer at Anna Jaques Hospital in Newburyport, MA. He was the Medical Director of Northeast PHO in Beverly MA, prior to filling his current roles.

Leslie Sebba, MD

Dr. Eric Sleeper – Garden City Pediatrics, Beverly

I am excited to run for re-election as a primary care representative to the NECOMG Board. I hope to continue to promote high quality primary care and optimize physician reimbursement in this rapidly changing healthcare environment.

In addition to serving on the NECOMG board, I also sit on the NEPHO and LCPN board of directors.

As a partner and private practice pediatrician at Garden City Pediatrics (GCPA), I will continue to represent primary care physicians. It is my goal to ensure our PHO provides efficient and high value services to our physician community and our patients.

Thank you for your consideration.

**Dr. Eric Sleeper is a candidate
for one of two
Primary Care Physician
Board of Directors seats**

Dr. Kathryn Hollett – Lahey Healthy Primary Care, Gloucester

I appreciate the opportunity to participate on the NECoMG Board, and am interested in continuing this role. During my years on the leadership team at North Shore Community Health, I gained familiarity with healthcare organization financial considerations.

The past year on the NECOMG Board has been an informative experience in learning more about the interplay between the PHOs, hospitals and insurance. I hope to bring a fresh perspective to the Board, and to advocate for contracts and policies which prioritize and incentivize population health and patient experience, and support the retention and recruitment of quality physicians.

Thank you for considering my candidacy.

**Dr. Kathryn Hollett is a candidate
for one of two
Primary Care Physician
Board of Directors seats**

Dr. Richard E. Mugge – North Shore Ear Nose and Throat

I have been serving the Northeast Hospitals system as an otolaryngologist for over 20 years. Our private practice, North Shore Ear, Nose & Throat Associates, now provides the entirety of ENT care for all three local health systems. As our practice has taken an increasing role in providing compassionate and effective care to the patients of the North Shore, we feel the need to represent the shrinking segment of private practice in local medical care services.

The Northeast PHO is an effective and cohesive organization that consistently scores well in providing high quality and efficient patient care, strong patient evaluations and good reimbursements from health care payors. This organization is well managed, and now with BILH, is securing pay rates and reimbursements similar to large academic centers. This is an enviable position for our PHO, but we must continue to provide warm, accurate, timely and local care to the residents of the North Shore. We at NSENT are committed to these principles.

I would be humbled and honored to continue to represent your interests as a specialty physician on the NECoMG Board of Directors.

**Dr. Richard Mugge is a candidate
for the Specialty Physician
Board of Directors seat**
