

## 2023 national documentation and coding education calendar

Courses are applicable to providers, billers, coders and others involved in documentation and quality improvement best practices. Optum offers a variety of documentation and coding educational sessions for Medicare Advantage, Affordable Care Act and Medicaid risk adjustment. Please ask your Optum representative for more information regarding course offerings.

### CEU information

CEUs (AAPC) may be offered for these trainings. Information for obtaining the credits will be given during the session. Some sessions will be offered multiple times during the year, but the index number/certificate will only be eligible for CEU credit once per year.

### Registration

1. Click on the link for the session you would like to attend.
2. A registration window will open. Fill out the registration form. Select "Register Now" at the bottom right hand corner of the screen.
3. You will receive a confirmation email with instructions for joining the Microsoft Teams session. To add this session to your Outlook calendar, double click on the confirmation email's attachment (.ics file) and then click on Accept.

**Each registration confirmation link is unique to the participant; users cannot share or forward a link, as the system will only allow one user to log in.**

### Troubleshooting information for Microsoft Teams

Microsoft Teams issues may occur due to poor internet connection, your computer's firewall, antivirus program not allowing the connection or because you have an older version of the software that doesn't match with updated connectivity protocols.

1. Open the Microsoft (MS) Settings app by clicking on the start button. Select Settings or use the search function, go to Update and Security and select Troubleshoot. Then select Additional troubleshooters and Internet Connections. Allow troubleshooter to run and apply all changes that it recommends, then Restart the system. Open Microsoft Teams, sign in and try the meeting again.
2. Call tech support at 1-800-642-7676 or 1-800-892-5234 if you are still unable to access the session.
